PROFILE SUMMARY

Java Developer with 1 years of experience, primarily focused on backend development using Spring Boot and RESTful APIs. Hands-on experience with frontend technologies, along with strong skills in database design, SQL optimization, and secure application development. Adept at building scalable and high-performance applications..

WORK EXPERIENCE

Associate Software Engineer | Kavya Infoweb Pvt.Ltd (onsite)

Nagpur

Aug 2025 - Present

- Developed and maintained backend services for multiple web-based applications using Spring Boot, improving system efficiency and scalability.
- Conduct software analysis, testing, programming, and debugging.
- Recognize the production and non-production application issues and resolved that.
- Tech-Stack : Java 8,17, Spring Boot, REST APIs, Spring Security, Spring Data JPA with Hibernate, SQL Server, HTML, CSS,JavaScript.
- Implemented RESTful APIs for modules like user management, inventory, and billing, enabling seamless integration with frontend systems.

Intern

June 2023 – Aug 2023

RBrickks Technology Pvt . Ltd. Pune

- Developed and maintained 3+ backend systems using Java and Spring Boot, enabling scalable and secure application performance.
- Designed RESTful APIs and handled database integration (MySQL), improving data processing efficiency by 20%.
- Documented backend workflows and API endpoints, improving team collaboration and onboarding efficiency.
- Collaborated with frontend teams to integrate APIs seamlessly, ensuring smooth data flow across applications.

PROJECTS

Harishchandra Medicity - Hospital Management System

- Developed a scalable hospital management system using RESTful APIs to manage patient records, appointment scheduling, and billing workflows. Designed structured backend modules to ensure smooth data flow and system reliability.
- Engineered optimized SQL database schemas and complex queries, improving data retrieval efficiency.
- Implemented validation layers and business logic to maintain data accuracy and reduce inconsistencies in patient and transaction records. Enhanced system performance by optimizing API responses and backend processing, ensuring faster operations and improved user experience.

RxINCREDIBLE- Pharmacy Management System

- Developing a Pharmacy Management System to automate medicine inventory management, billing, prescription handling, and order processing workflows for improved operational efficiency.
- Building scalable backend services using Java, Spring Boot, and REST APIs with proper layered architecture and reusable modules.
- Designing and optimizing MySQL database schemas to ensure fast data retrieval, data consistency, and secure transaction management.
- Integrating and testing RESTful APIs using Postman for seamless communication between frontend and backend systems.
- Implementing features such as stock management, invoice generation, customer records, and order tracking with focus on performance and maintainability.

SKILLS

- **Programming Languages:** Java(8,!7) | SQL | JavaScript
- **Frontend Technologies:** HTML | CSS | Bootstrap |Thymeleaf
- **Databases:** MySQL | PostgreSQL
- **Frameworks / Technologies:** React | Spring | Spring Boot | Spring MVC | Hibernate | JPA | JDBC | RESTful APIs | Microservices (Basics) | JSON
- **Tools/Platforms:** GitHub | VS Code | Postman
- **Core Concepts:** OOP, MVC Architecture, REST API Design, Role-Based Access Control, Database Normalization

EDUCATION

Kavikulguru Institute Of Technology And Science (KITS), Nagpur <i>Bachelor of Engineering (B.E).</i>	2020-2023
Government Polytechnic, Bramhapuri Diploma	2017-2020

CERTIFICATES

- Certification as Head Event Coordinator in College forum
- Certification of Java Full Stack Development in Naresh IT, Hyderabad
